

Dear Parent or Guardian,

The Virginia State Board of Education requires that parents be notified in advance of any units that will be taught in **Family Life Education**.

In the **10th grade** class, students study driver education as one unit and family life education as a second unit. The family life unit includes the following topics: family planning/birth control options, the joys and responsibilities of marriage and family, parenting skills, the family as a basic unit of society, and health and safety within and outside the home. Students will also study sexually transmitted diseases including AIDS.

You are encouraged to visit the school media center to review the Family Life Education program summary, the curriculum, and instructional materials available for use in the program.

All videos used in the program are housed in the office for curriculum and instruction located on the second floor of the School Administration Building, 915 Court Street. Videos may be viewed at this location or at the school media center. To view videos at the School Administration Building, call 515-5022, to make arrangements, to make arrangements. To view videos at the school, contact the school librarian. Because videos may be in use at other schools at the time of your request, they may not be available immediately for preview. Upon request, your child's family life teacher can give you the titles of any videos that will be used in class.

Although annual evaluations indicate that Lynchburg's program is well designed and appropriate, you may exercise your "opt-out" right if you believe any part of the Family Life curriculum is not appropriate for your son or daughter. Alternate assignments related to health will be provided for students whose parents elect to "opt-out." **Please complete and return the attached option statement to your child's teacher to indicate your preference for participation.**

Sincerely,

Al Coleman
